

GRACE BASED GRANDPARENTING

Solving the Sticky Situations

presented by
Dr. Tim Kimmel

Grandparenthood is supposed to be life's great reward for all those demanding years you spent raising your kids. But it involves people, and people often bring personal issues to the mix that create all kinds of sticky situations — issues like philosophies of parenting, faith priorities, world views, your history with your kids, in-law children, availability (or lack of it), divorce, money and personal agendas often collide with grandparenting's greater purposes.

Fortunately, the God who invented the role of grandparent knew it would come with challenges. He offers you a strategy for dealing with these setbacks that radically raises the odds of it being the source of joy and reward it is supposed to be. God's truth and grace are ready to come to your rescue. *Grace Based Grandparenting: Solving the Sticky Situations* shows you how. You have a significant chance to impact your grandchild's life. Don't miss it!
